phone for a quick check of the local weather forecast sees that fine conditions are expected for the evening and decides to leave her umbrella by her desk. Nancy is due to meet her boyfriend Peter at seven o'clock so she has two hours in town to waste. As soon as the clock reaches five she receives a text message telling her that the bar across the street has a happy hour when drinks are cheaper. Nancy deletes the message almost without reading it. She has given her mobile service provider permission to send her unsolicited local promotional messages after five otherwise she would have to pay a higher subscription rate, but that does not mean she actually has to read the message. Five minutes later another message arrives with a coupon offering a discount at the local branch of her favorite coffee bar. She shows the coffee shop attendant the numbered message on her phone's screen and he keys in the number on the till when charging for the coffee. Now comfortably seated with her cappuccino, Nancy begins to plan her evening. She uses her mobile to check which movies are showing nearby. After seven

this book examines the role of law and policy in addressing the public health crisis of COVID-19 and offers reforms that could improve pandemic preparedness for future outbreaks. Focusing on a number of countries most expected to provide agility and organization in their crisis response—the United States, Canada, Australia, the United Kingdom, and Taiwan—the book shows how failures in leadership from governments, executives, and institutions created a vacuum that was quickly filled by naysayers, conspiracy theorists, vaccine hucksters, and fake news generators. Through the key themes of healthcare, leadership, security, and education, the chapters address critical questions: Why have masks become such a polarizing force? How do you self-isolate if you don't have a home? How should equitable triage models for overwhelmed frontline healthcare workers be developed? Can we utilize artificial intelligence to educate the public about manipulated information they access concerning the pandemic? The book was written during the pandemic and weaves in to each chapter vignettes with personal revelations from a broad range of countries, including some also grappling with poverty, war, natural disasters, or revolution. It will appeal to academics, professionals, and policymakers interested in how law and health policy can converge on solutions for global infectious disease. It is suitable for use in upper-level courses.

this book describes the life of a pirate in the early 18th century, the golden age of piracy. It charts the way these men and a few women were recruited, how they operated, what they looked like, and what prospects their lives held. In the process, the book strips away many of the myths associated with piracy to reveal the harsh realities of those who lived beyond the normal bounds of society. Written by pirate expert Angus Konstam, the book draws on decades of research into the subject and pulls together information from a myriad of sources, including official reports, contemporary newspaper reports, trial proceedings, and court testimony; last words on the scaffold; letters and diaries, as well as archaeological evidence and relevant objects and artefacts from museum collections on both sides of the Atlantic. A must-have for

fans of the classic pirate stories or warfare in the early 18th century

something has gone seriously wrong with the american economy the american economy has experienced considerable growth in the last 30 years but virtually none of this growth has trickled down to the average american incomes have been flat since 1985 inequality has grown and social mobility has dropped dramatically equally troubling these policies have been devastating to both american productivity and our long term competitiveness many reasons for these failures have been proposed globalization union greed outsourcing but none of these explanations can address the harsh truth that many countries around the world are dramatically outperforming the u s in delivering broad middle class prosperity and this is despite the fact that these countries are more exposed than america to outsourcing and globalization and have much higher levels of union membership in what went wrong george r tyler a veteran of the world bank and the treasury department takes the reader through an objective and data rich examination of the american experience over the last 30 years he provides a fascinating comparison between the america and the experience of the family capitalism countries australia austria belgium denmark france germany the netherlands and sweden over the last 30 years they have outperformed the u s economy by the only metric that really matters delivering better lives for their citizens the policies adopted by the family capitalist countries aren t socialist or foreign they are the same policies that made the u s economy of the 1950s and 1960s the strongest in the world what went wrong describes exactly what went wrong with the american economy how countries around the world have avoided these problems and what we need to do to get back on the right track
