mediatization has emerged as a key concept to reconsider old yet fundamental questions about the role and influence of media in culture and society in particular the theory of mediatization has proved fruitful for the analysis of how media spread to become intertwined with and influence other social institutions and cultural phenomena like politics play and religion this book presents a major contribution to the theoretical understanding of the mediatization of culture and society this is supplemented by in depth studies of the mediatization of politics from party press to opinion industry the mediatization of religion from the faith of the church to the enchantment of the media the mediatization of play from bricks to bytes the mediatization of habitus the social character of a new individualism mediatization represents a new social condition in which the media have emerged as an important institution in society at the same time as they have become integrated into the very fabric of social and cultural life making use of a broad conception of the media as technologies institutions and aesthetic forms stig hjarvard considers how characteristics of both old and new media come to influence human interaction social institutions and cultural imaginations

in a time of eroding sovereignty and resurgent nationalism this collection provides a searching investigation of the moral foundations of the international order drawing on diverse philosophical and theological perspectives the contributors debate the character of international society the authority of international law and institutions and the demands of international justice in a series of philosophical essays each followed by a critical commentary the book considers the contributions of legal positivism natural law kantian ethics contractarian theory and moral cosmopolitanism to the discussion of law and justice in international society it also includes commentaries by experts in jewish christian and islamic moral theology and a concluding chapter that compares and contrasts the views presented without seeking to adjudicate their differences because of its comprehensive approach and the diversity of its viewpoints the volume serves as an introduction to the topic and as a resource for scholars journalists policy makers and anyone else who wants to understand better the range of moral perspectives that underlies discussion of the current international order in addition to the editors the contributors are brian barry chris brown john charvet richard friedman robert p george sohail hashmi pierre laberge david miller david novak max l stackhouse fernando r tesón and frederick g whelan

almost all aspects of social cultural economic and political life stand to be affected by the new electronic technologies virtual society is one vision of the consequential impact of these technologies but to what extent and in what ways are the internet and other electronic technologies really changing our lives to what extent are we moving to a virtual society this collection provides a comprehensive set of detailed empirical studies of the genesis and use of these new technologies ranging widely across application areas from cyber cafés to new media email and organizational memory to surveillance capable technologies in the workplace virtual reality to cctv in high rise housing stock exchange addicts to student study networks it offers a unique perspective analytic scepticism for making sense of some surprisingly counterintuitive results and for developing a refreshingly critical view of many taken for granted assumptions about the impact of the internet on social relations and institutions each chapter presents a high quality exemplar of its own disciplinary perspective addressed to a general social science audience the diversity of disciplinary perspectives is brought to bear in a central message laid out in the opening discussion of the five rules of virtuality that with due reflexive caution and ironic sensitivity general messages can be drawn from the observations of particular substantive contexts in particular claims that we are moving to a virtual society need to be tempered by a reassessment of connections between what counts as real and virtual this book will appeal to students and researchers in a very wide range of disciplines both within and beyond the social sciences and management and to all practitioners struggling with the realities of the new virtual technologies

this book provides a detailed reconstruction of the process of formation of the modern concept of society as an objective entity from the 1820s onwards thus helping to better understand the shaping of the modern world and the nature of the current crisis of modernity the concept has exerted considerable influence over the last two centuries during which time many people have conceived themselves and behave as members of a society and social scientists have explained human subjectivities and conducts as social effects for both groups society exists as a very real phenomenon historical inquiry shows however that the modern concept of society is no more than a historically contingent way of imagining and making sense of the human world

after years of research american syndicalist author h r morgan presents a collection of the key statements made by the early fascist leaders and their best thinkers included are

criticisms of and solutions to all of the problems troubling the world today both the causes of global misery and the reasons for their having happened are plainly mentioned the solutions are simply stated and strait forward if you want to know why things today are the way they are read this book contained within its pages is a sweeping panorama of pertinent statements made by those realists of the twentieth century that is actually from the 1880 s on up to today fascism is not racism says morgan fascism is realism it is a doctrine of realistic social and economic policies for todays world it is neither right wing or left wing it is the extreme radical center it is thinking outside of the box as they say the book begins with a very informative introduction containing a large amount of historical background it is however preceded with a preface of equally historical and semi biographical importance afterward is the main text called the codex the codex is a long anthology of excerpts quotes paraphrases citations and commentary the book ends with a final word by morgan also included is a complete bibleography and index it is recommended for first or second year political science majors and for all those who are interested in the true meaning of fascism for our time rather than what they ve seen and heard on television and in the mass media

this volume features the complete text of the material presented at the twentieth annual conference of the cognitive science society as in previous years the symposium included an interesting mixture of papers on many topics from researchers with diverse backgrounds and different goals presenting a multifaceted view of cognitive science this volume contains papers posters and summaries of symposia presented at the leading conference that brings cognitive scientists together to discuss issues of theoretical and applied concern submitted presentations are represented in these proceedings as long papers those presented as spoken presentations and full posters at the conference and short papers those presented as abstract posters by members of the cognitive science society

drawing on experiences of interdisciplinary dialogue and practice in a higher education context this book illustrates how reformulating the agenda in science and technology can have a revolutionary impact on learning and teaching in the classroom at all levels

developed by the american cancer society this new textbook designed for a wide range of learners and practitioners comprehensively addresses all aspects of clinical management for cancer taking a balanced authoritative and where possible evidence based stance and

may be used in conjunction with the book the american cancer society s principles of oncology prevention to survivorship edited by leading clinicians in the field and a stellar contributor list from the us and europe this book is written in an easy to understand style by multidisciplinary teams of medical oncologists radiation oncologists and other specialists reflecting day to day decision making and clinical practice input from pathologists surgeons radiologists and other specialists is included wherever relevant and comprehensive treatment guidelines are provided by expert contributors where there is no standard recognized treatment this book is an ideal resource for anyone seeking a practical understanding of the field of oncology

list of members in each volume
